(Minneapolis, MN: May 12, 2010) Regulatory & Clinical Research Institute, Inc. (RCRI) a Minneapolis-based company offering specialized consulting services to the medical device industry is extremely pleased to announce the appointment of Jodi Raus, MBA, RAC to the role of Vice President of Regulatory Affairs and Quality Systems. She now leads RCRI's Regulatory & Quality team in the development and delivery of Regulatory, Quality System and Compliance services as well as serves as a senior strategic consultant (Sr. Principal Advisor).

Before joining RCRI, Jodi was at AGA Medical Corp where she initially managed the Regulatory, Quality and Clinical Affairs functions to becoming the Sr. Director of Regulatory Affairs providing leadership in the development of domestic and international regulatory strategies for market release of medical devices. Jodi has over 20 years of experience working with U.S. and international regulatory agencies successfully obtaining regulatory approvals in over 100 countries as well as developing ISO and FDA compliant quality systems. She is an active member of the Regulatory Affairs Professional Society and has Regulatory Affairs Certification (RAC).

“Jodi’s extensive expertise in Regulatory Affairs and “Quality Systems, along with her project management and product development experience bring a strategic, senior level consultative role to RCRI.” stated Steve Norsted, PhD, RCRI President and Senior Principal Advisor. “Her ability to successfully bring products to market will be invaluable to RCRI’s clients.

“In this ever-changing global regulatory landscape, I am honored to lead a regulatory and quality team that has a solid regulatory knowledge base as well as a breadth of experience with a wide variety of device types.” Raus
