

Regulatory & Clinical Research Institute, Inc. (RCRI) Announces Expansion of Senior Management

Management Team Expanded to Accommodate Corporate Growth

FOR IMMEDIATE RELEASE: Juli Denny, 952-224-2263, jdenny@rcri-inc.com

(Minneapolis, MN: November 11, 2008) The ongoing strength of the medical products sector continues to fuel growth of the Regulatory and Clinical Research Institute, Inc. (RCRI). The resulting corporate expansion now provides the opportunity for appointment of Chris Lyle, MS as the Vice President of Corporate Operations.

“RCRI has been growing at a tremendous rate due to the strength of the medical products sector. Our expansion has necessitated the creation of an additional executive position overseeing the scientific integrity and management of daily operations” stated Dr. Steve Norsted, President and CEO. “We were very proud to appoint Chris to this position as he has demonstrated strong management, product development, and research expertise during his six years with RCRI.”

Lyle will immediately transition to his new position having responsibility for daily corporate operations. Ms. Maria Schroeder, MPH will replace him as RCRI’s Director of Biostatistics and Information Management.

“RCRI is a strong company, committed to customer loyalty and a high-quality work product”, said Lyle. “We will continue on this path and seek new opportunities for further expansion.”
